Damn incurable illness
Dear
What a terrible disease
What did my child do to deserve this?

"A serious illness story"?
In the introduction, the heroine dies of a serious illness
...."Rebirth"!
Right!
She is reborn as a different person, but her boyfriend despairs and commits suicide
True love that surpasses space and time.
But then he is also reborn and searches for his beloved
"Always just missing each other" and "the red thread of fate"!

"The smile of a seriously ill child", double serious illness
The item needed to meet him again that an angel told her of.
And so she waits and remembers.
So she collects illnesses and enters a tournament or something?
Ooo ooh
This is their poor copy!
You know those currently rampant stories about perverted fatal diseases that serve to arouse their maniacs?
.....
There you go again.
Woah!
That's good!
Listen up, Hadori
This kind of a story ..

Huh?
Just... let's give a name to this serious illness.
A nice complicated name... okay?
Hadori-sensei, let's go with this, it's amazing.
Murakami-kun, be quiet for a minute.
It's been a while, so I too would like to hear Sawada-san's pet theory.
If you're a woman too,

All because I got removed as her editor
but Hadori, can brag about how popular she is now
That may be so, too,
She was complaining on the phone.
You're too naive to be taken in by the *woman* act.
Those eyes said that crap story was no good.
I bought your eyes as an editor.
Not as a man or a woman.
I know that much.
Aaah I didn't want to say it!!!
"This is business"
She and I have always disagreed on how to make a story. Please consider a new project for me...

Per author's request.
Oh?
Then this will be quick
I'm not removing you as an editor.

Good, good, taking the long term view.
I will comply for the sake of my livelihood

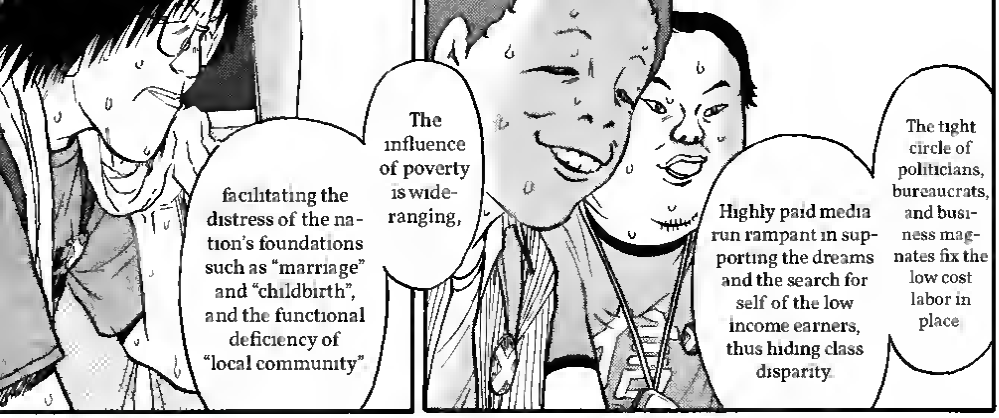
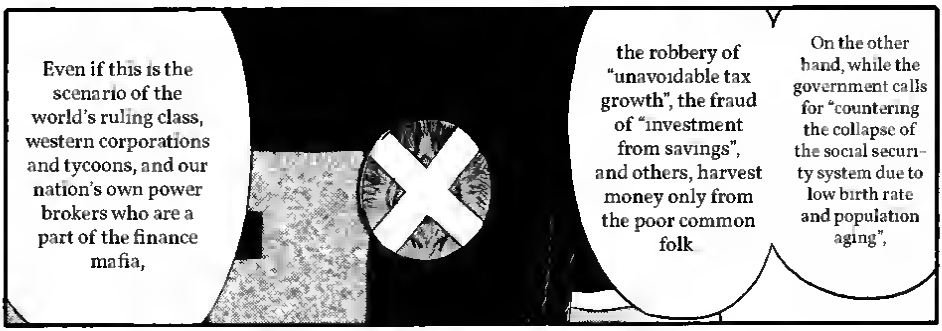
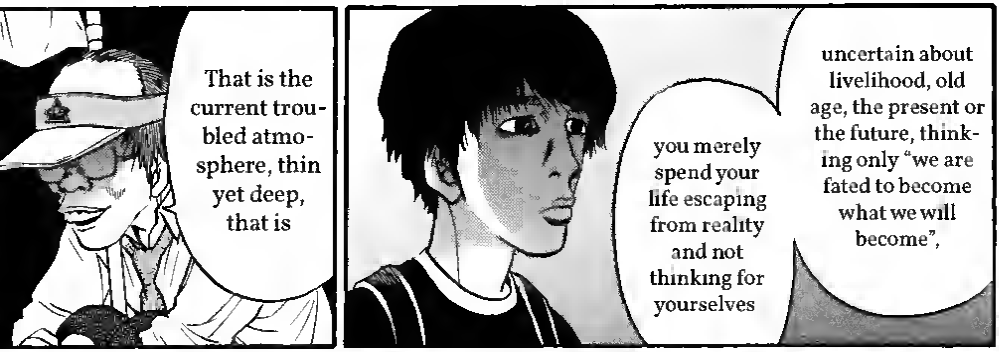
With constricted "domestic demand expansion", while extolling "local consumption", large enterprises accelerate offshoring to overseas locations,
leading to sharp reduction in domestic employment and a large number of unemployed
Too much omitted.



The influence of poverty is wide-ranging,
facilitating the distress of the nation's foundations such as "marriage" and "childbirth", and the functional deficiency of "local community"
Highly paid media run rampant in supporting the dreams and the search for self of the low income earners, thus hiding class disparity
The tight circle of politicians, bureaucrats, and business magnates fix the low cost labor in place



Even if this is the scenario of the world's ruling class, western corporations and tycoons, and our nation's own power brokers who are a part of the finance mafia,
the robbery of "unavoidable tax growth", the fraud of "investment from savings", and others, harvest money only from the poor common folk
On the other hand, while the government calls for "countering the collapse of the social security system due to low birth rate and population aging",



That is the current troubled atmosphere, thin yet deep, that is
you merely spend your life escaping from reality and not thinking for yourselves
uncertain about livelihood, old age, the present or the future, thinking only "we are fated to become what we will become",

surrounding your group.

The plot is "Love comedy like a 2000s cell phone novel in the style of a 90s Monday 9 pm drama".

What you have drawn here are poop and bishoujo.

Answer me, Fabiana Taku!

I.. Because I'm... a pervert.

Come on!

Pervert is fine.
That's why you want to express it.
So, what will it be? "Poop"? Or "disembowelment"?
.....
Really...? Being a pervert... is fine?
I... It's like you're talking about someone else.
As long as there is no definition of a normal person, you have to say this world is filled with perverts.

And the people... who can't draw...?
To put it openly in a manu-script...
It isn't about anyone else.
Look, even if you're a pervert, that in itself is a weapon for a mangaka.
